

INSTITUTE OF ETHIOPIAN STANDARDS, Scheme and Standards Mark Administration Lead Executive

CAPA Report

Document No: CAPA-2026-001 | Generated: 2026-05-25 05:58

Quality village, Addis Ababa, Ethiopia, MEGENAGNA

Basic Information

CAPA ID:	CAPA-2026-001
Source:	Internal Audit
Description:	CSSMA has not properly planned and documented the change of relocating from the old office to the new office. There is no documented plan in place to manage the change, assess associated risks, or ensure continuity of the Quality Management System (QMS) during the transition as per 6.3.
Root Cause:	Focus was placed on the physical logistics of moving equipment rather than the systemic impact on QMS processes and risk mitigation.
Action Type:	Corrective
Owner:	CSSMA

Progress Tracking

Progress Status:	Completed
Action Taken:	Actions Taken for Clearance • Development of Change Management Plan: A comprehensive Relocation Management Plan (Ref: IES/CSSMA/CMP-01) was developed using the institutional template. This plan specifically outlines the purpose, scope, and objectives of the office transition. • Risk Assessment: A formal risk assessment was conducted identifying four critical areas: Data Integrity, Service Interruption, Traceability Failure, and Resource Unavailability. • Implementation of Control Measures: * Executed a 100% pre-move inventory of all physical certification files to ensure no loss of traceability. o Verified full digital backup of the Standard Mark Administration System prior to hardware relocation. o Established a phased staff deployment to maintain a "skeleton crew" for customer service during the move. • Post-Move Validation: Conducted a functional verification in the new building to ensure IT connectivity and the Digitalized Standard Mark system are fully operational.
Action Started:	2026-04-06
Action Completed:	2026-05-05

Status & Dates

Overall Status:	Closed
Date Opened:	2026-05-24
Due Date:	2026-04-05
Days Open:	0

Effectiveness & Feedback

Effectiveness Check: The transition was properly documented for both past and future actions in full compliance with ISO 9001:2015 Clause 6.3. The integrity of the QMS was maintained during the relocation process, and all certification scheme and mark admin services continued without interruption.

Feedback: We kindly request the QM and Quality Auditor to review the provided evidence and closure of the NCR No. 09/2026.
